

AN ALL-IN-ONE
HASSLE FREE PACKAGE
FOR **9 MONTHS** OF PREGNANCY.

APPOINTMENTS, CONSULTATIONS, SCANS & TESTS....
LEAVE ALL THE WORRIES TO US, SO YOU CAN JUST RELAX AND
CHERISH THE MOST PRECIOUS GIFT OF NATURE **“MOTHERHOOD”**

MOTHERHOOD AND PREGNANCY come with a burst of joyous emotions to not only the mother-to-be, but also to the entire family! When it comes to looking after the pregnancy and that precious little pod growing in your tummy, it is the parents that feel the burden and pressure with so many things to plan, manage and take into action- regular obstetrician consultations and visits, periodically required scans and investigations, deciding on and booking the antenatal classes, dietician and physiotherapy appointments and of course, booking the delivery room and planning your hospital stay for the baby arrival.

All this is overwhelming enough and it doesn't even stop here. Once baby arrives, then start the Paediatrician appointments, post-natal obstetrician appointments, regular vaccinations necessary at birth and just when you think everything is under control mummy realizes that she needs to look after herself too. You will need post-natal physiotherapy, dietician and lactation consultants. Wow! That really sounds like a lot! Don't worry. At Femcity, we make this all super easy for you! At one place under one roof. Femcity strives to provide patients with quality health care yet make luxury healthcare as easy and affordable as possible.

Let the outstanding **FEM 9 PACKAGE** take away all your worries. Fem9 is an all in one, hassle free package that covers a wide range of services and everything you need taken care of during and immediately after your pregnancy.

And don't forget, we offer **0% INTEREST EMI ON FEM 9 TOO!**
